

GERIATRIC ADDICTIONS ROUNDS: 2-in-1 Event

Development of a Novel Clinical Rotation in the Care of Older Adults with Substance Use Disorders - Dr. Jessica Cuppage

Naltrexone Use in Older Adults with Substance Use Disorders - Dr. Jonathan Bertram

DEVELOPMENT OF A NOVEL CLINICAL ROTATION IN THE CARE OF OLDER ADULTS WITH SUBSTANCE USE DISORDERS

Jessica is a family physician in Toronto working with frail homebound seniors and in long-term care. She completed her medical training at McMaster University and her family medicine residency at the University of Toronto. She recently completed her Care of the Elderly Enhanced Skills Training Program at the University of Toronto.

Learning Objectives

1. Understand the epidemiology and significance of substance use disorders in older adults.
2. Understand the factors involved in creating a clinical rotation to address learning objectives related to substance use disorders in older adults.
3. Consider how a geriatric addictions curriculum may fit in to the Care of the Elderly Enhanced Skills Program and other postgraduate medical programs.

NALTREXONE USE IN OLDER ADULTS WITH SUBSTANCE USE DISORDERS

Dr. Jonathan Bertram is a staff physician at the Centre for Addiction & Mental Health (CAMH) under the Addictions Medicine Service and Aboriginal Outreach program. He runs a community practice in Pain, Family Medicine and Addictions in Bowmanville, Ontario. He is a consultant physician on Geriatric Addictions Management to COPA (Community Outreach Pro-grams in Addictions). Dr. Bertram is also the co-chair of the Older Adult Cannabis Working Group for the CCSMH [Canadian Coalition for Seniors' Mental Health] National Best Practice guidelines.

Learning Objectives

1. Review the basic pharmacology of naltrexone
2. Discuss considerations of naltrexone use in older adults with SUD's
