

Join our next provincial TYPED LIVE CHAT!

The Provincial Behavioural Supports Ontario Lived Experience Advisory invites you to join us for a TYPED LIVE CHAT discussion about "Family Dynamics." We look forward to hearing your feedback. If you cannot attend the chat, you can email your observations to sosvald@alzking.com.

Share your feedback!

When a person is living with dementia, complex mental health, substance use or other neurological condition(s), this can affect family dynamics. In some situations families come closer together, however differing opinions and personal histories can also result in some challenges. This chat will focus on navigating family dynamics and how they may change over time.

1. What strategies have helped you to cope, communicate and build collaboration with your families?
2. How could the health care system have helped with these challenges/changes in your family?

When: Wednesday, October 17, 2018, 7:00pm - 8:30pm

Where: On the Dementia Crossroads Lived Experience Café
website: <http://dementiacrossroads.ca/chat.php>
