

OTN Geriatric Addiction Rounds

Substance Use and Falls in Older Adults

PRESENTER:

Jonathan Rajeevan Bertram is a Staff Physician at the Centre for Addiction & Mental Health (CAMH) under the Addictions Medicine Service & Aboriginal Outreach. He runs a community practice in Pain, Family Medicine & Addictions in Bowmanville, Ontario. He is a consultant physician on Geriatric Addictions management to COPA (Community Outreach Programs in Addictions).

Publications

- Author for "Journey to Healing" - a CAMH publication
- Chapter on Aboriginal Communities & Opiate Addiction
- Journal of Current Pharmaceutical Design- Benzodiazepine Use Disorder

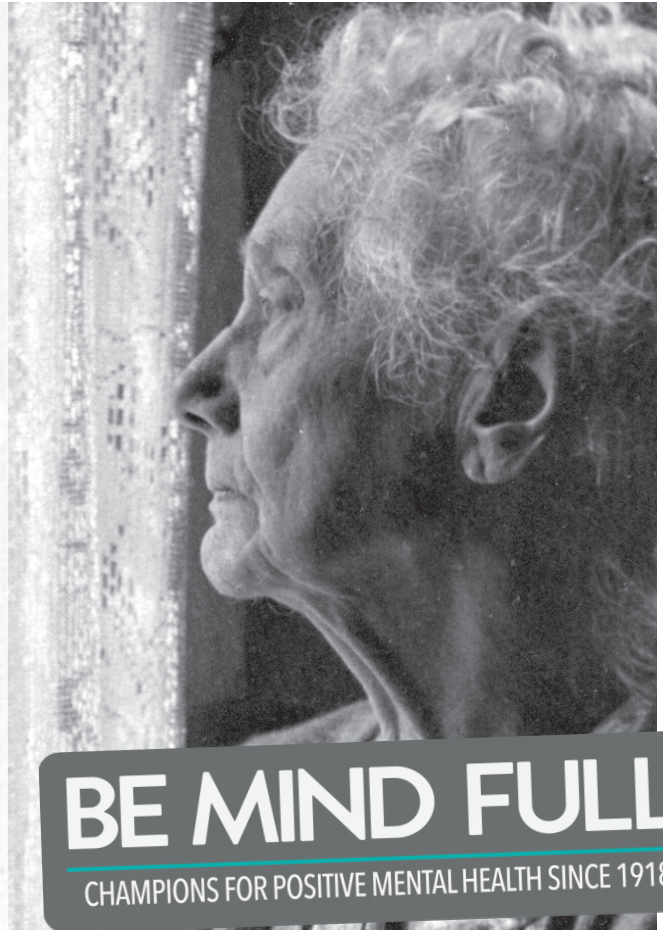

LEARNING OBJECTIVES

To relate the involvement of substances (Alcohol) in injury from falls.

To discuss medication that can impact falls risk such as medication for sleep or anxiety.

To understand the factors related to falls in substance use disorders for older adults using case based learning.

The Geriatric Addiction Rounds are accredited for Mainpro+ credits of 1.5 credits per session. Please contact mwhitecampbell@cmhawwd.ca or darmsstrong@cmhawwd.ca for confirmation of credits or a certificate of attendance
