

Community & Long Term Care Collaborative Learning Networks Present:

Responding to Pain: An Integrated Approach

Target Audience:

- Healthcare Providers (e.g. PSW, Nursing, Allied Health, Restorative Care, Recreation Therapy, Rehab Assistants and Volunteers) who care for complex patient populations in Long Term Care, the community, complex continuing care, and other related settings.

This interactive session will support your understanding of:

- Types of pain
- Dementia, Delirium and Depression;
- Behaviors & signs and symptoms of pain;
- Assessment tools and communication strategies; and
- Pharmacological and nonpharmacological interventions.
