

Self-disclosure about dementia on social media: toward evidence-informed guidance

Do you identify as someone **living with dementia** or a **care partner** for someone living with dementia?

THE UNIVERSITY
OF BRITISH COLUMBIA

nestlab
NEUROSCIENCE ENGAGEMENT SMART TECH

Have you ever posted about your experience on **social media**?

This **research study** is looking for participants to take part in a ~30 minute interview to share **perspectives** on the motivations and impacts of disclosing a diagnosis of dementia or being a care partner on social media.

Interested in **participating** or learning more?
