

- ### Three Concepts for Consideration
- Integration is different than Regionalization.
 - Populations require a continuum perspective.
 - Collaboration trumps competition.

- ### Integration is different than Regionalization.
- Distributed leadership vrs Centralization.
 - Organized around populations not sectors.
 - Strengthens system vrs builds dependencies.

- ### Populations require a continuum perspective.
- Populations (dementia) cross sectors.
 - People matter more than organizations.
 - "It takes a system"

- ### Collaboration trumps competition.
- Recognizes breadth of expertise available.
 - Public, Not For Profit and across service sectors.
 - Recognizes depth of expertise available at each point across the broad horizon.
 - Builds shared commitment to population
 - Fosters innovation
 - Teams over groups
 - Outcomes over functional factionalism.
