EDUCATION & TRAINING COMMITTEE

NEED	<i>How do we choose education and training programs to best enable staff to care for clients with responsive behaviours in a way that is safe and person-centred?</i>
OPPORTUNITY	In 2008 the Dementia Educational Needs Assessment (DENA) was developed. The BSO Education & Training Committee identified an opportunity to build on and expand this resource to meet the current identified need for the BSO target population
ACTION	Committee of 22 members representing both health and safety sectors was established with a smaller BETSI subgroup to who produced the document
PHASE 1	The Behavioural Education and Training Supports Inventory (BETSI) Decision Making Framework and Program Inventory

WHO SHOULD USE BETSI

Those who make decisions about capacity building / education and training opportunities for staff who care for individuals with responsive behaviours

For example: Capacity building leads, LHIN BSO leads, Directors of Care, Educators, Psychogeriatric Resource Consultants, Joint Health and Safety Committees, Public Education Coordinators, etc.

WHY USE BETSI?

To answer any of the following questions:

- Is education what my staff need?
- How do I know what programs are out there?
- How do I pick the right one?
- Is sending staff to education programs enough?
- How can I make sure my investment in education is worth it?

HOW TO USE BETSI

- Review of the Decision Making Framework and Program Inventory

NEXT STEPS

- Dissemination of BETSI (Provincial Associations, National networks, other?)
- July Webinar for PRCs, PECs and Mental Health, Addictions and Behavioural Issues CoP
 - Who needs to have this in their hands and how do we get it to them?
 - What is needed to support people to use this tool for decision making?
