A dementia strategy for Canada: together we achieve

In its first national strategy on dementia, the Government of Canada has highlighted the need to improve quality of care for individuals living with dementia, with emphasis on following best practices and evidence in care delivery and providing care staff access to education and training.

It is also known that the design of the physical environment of care homes is integral to the care experience of individuals living with dementia.

Seetharaman K, Chaudhury H, Kary M, Stewart J, Lindsay B, Hudson M. **Best practices in dementia care: a review of the grey literature on guidelines for staffing and physical environment in long-term care.** Can J Aging 2022;41(1):55- [abstract](#)
